

FAQs:

Why do I need an OverDrive account?

OverDrive uses the OverDrive account to manage the licensing of the digital book you are borrowing, sync bookmarks, and saved searches.

What do I do when a title expires?

The titles will automatically return themselves for the next patron to borrow, no action is needed on your part.

What if I don't finish my book?

The app will remember your place, simply check out the title again to resume reading. Check *Settings* to change how many titles are remembered.

Can I return an eBook early?

Yes! Press and hold book cover until menu opens with the *Return* option.

What formats can I use with the OverDrive app?

ePub, Open ePub, and MP3

Can I borrow a Kindle eBook?

To read a Kindle book you will have to use the Kindle app and go through your Amazon account. For more information on borrowing Kindle books please see "How To: Transfer eBooks to your Amazon Kindle"

Why don't you have the classic title I'm looking for?

Many of those titles can be found in our separate *Always Available* collection.

Use these instructions for Android tablets, smartphones, and devices with Android 4.0 or newer. OverDrive Media Console will work on older versions of Android but will have a different interface.

***Renewing now available*:**

The option to renew becomes available three days before the title is set to expire and appears next to the title on your Checkouts under your Library Account. Look for the **Green Renew icon**. You can only use the renew feature once for each title you've borrowed.
